Printer and Print Details

All prints are printed on an Epson P800 photographic quality printer utilizing nine ink colors. All prints are printed on Epson Ultra Premium Photo Luster Paper with Epson Ultra chrome HD Inks. Prints are delivered in crystal clear photo sleeves.

Standard Print Sizes

We keep 8-1/2" x 11", 13" x 19" and 17" x 22" paper in stock. The following are standard photograph sizes and the paper size we print them on:

Paper size (inches)	Image size (inches)
8-1/2" x 11"	5" x 7" or 8" x 10"
13" x 19"	11" x 14" or 12" x 18"
17" x 22"	16" x 20"

5" x 7" are typically displayed on a desk or table, 8" x 10" is good for general home display and 11" x 14" is a standard gallery display size or large home display.

Custom Print Sizes

Standard print sizes are great if you want quick and easy framing in kits readily available in stores, but there is actually a big drawback to standard prints. A full frame camera sensor is 24mm x 36mm, an aspect ratio of 1.5x (long side divided by short side). Standard picture sizes have aspect ratios of 1.4 for a 5" x 7", 1.25 for an 8" x 10" and 1.28 for an 11" x 14". This means that when you print a photograph some portion of the long dimension is getting cropped. I prefer to print images at a 1.5x aspect ratio to preserve the whole photograph but then you need a custom frame. So for example, instead of printing 11" x 14", I print 9.33" x 14" and then do my own custom framing. We can print any size you want that fits on the paper.
